## **Response to consultation on proposed changes to Briardale Gardens NW3**

To Hasher Mahnavi

This response to the consultation on proposed changes to Briardale Gardens NW3, is from Camden Cycling Campaign, the local borough group of London Cycling Campaign (LCC). We represent the interests of cyclists living or working in the borough of Camden. We consulted members and others on CycleScape about this issue.

We are in favour of measures to reduce rat running in residential roads, in this case, Briardale Gardens and Ferncroft Avenue. We therefore support the proposal for a No Entry except for cyclists into Briardale Gardens from Finchley Road, with Briardale Gardens remaining two way.

Jean Dollimore, Camden Cycling Campaign Committee
