

## Camden Cyclists News: January 2021

from the Camden group of  
London Cycling Campaign

Dear John,

In this issue we cover

- A Summary of the Streetspace Improvements made by Camden in 2020
- Feedback and Consultations – your help needed on Haverstock Hill.
- Our upcoming January meeting including a talk by Alex Santacreu on cycle lanes in Paris.

### Infrastructure Gains in Camden in 2020

Thanks to the new Covid-19 Streetspace funding and the simplification of consultation, 2020 has seen an amazing leap in provision for cycling. [See our report](#). New pop-up cycle lanes, together with work already started on Prince of Wales Road, have resulted in a trebling of the provision of protected cycle lanes in Camden.

York Way

Prince of Wales Road

New cycle contraflows were introduced in a dozen streets; and half a dozen other barriers were opened up for cycling.

The first Low Traffic Neighbourhood was created in the Arlington Road area; and 10 other road closures produced a few mini-LTNs. In addition, a dozen school streets have opened.

Meanwhile, Camden continue with their bikehangar program - 70 new ones were installed in 2020.

## Haverstock Hill - needs your support

Conservative councillors have started yet another campaign against the proposed cycle lanes on Haverstock Hill and are supporting a crowd-funded legal challenge. To counter this we are asking you to add your positive comments in support of the lanes to Camden's Commonplace website [here](#). Also, please Agree with some of the other positive comments to be found at the bottom of the page.

The protected lanes on Haverstock Hill are an important next step in [Camden's plans for a borough-wide cycling network](#). You can see more details of the plans and the background to the scheme on our website [here](#).

## January meeting

Our January online meeting is on the 18th at 7:30. Details, including joining instructions, are [here](#). The agenda includes a talk by Alex Santacreu (former member of Camden Cyclists and Cycle Islington, now working in Paris at the OECD International Transport Forum): His topic will be **Progress on pop-up cycle lanes in Paris** and there will be plenty of time for a discussion.

Hope to see some of you at the meeting but if not, let's all hope for better things later in 2021.

Best wishes,

**Camden Cyclists**
