Linstead Street and Netherwood Street Safe and Healthy Streets Cycle Permeability

This response to the consultation on the above proposal from Camden Council is from Camden Cycling Campaign, the local borough group of London Cycling Campaign. We represent the interests of cyclists living or working in Camden and aim to expand the opportunities for all to cycle safely in the borough. We have discussed this consultation in our committee by email.

CCC supports the rollout of permeability measures, including this one, and has a map showing other possible locations [here](#) (blue lines).

We were pleased to see this relatively small but significant improvement for cycling in Camden introduced under an ETO last year and are very supportive of making it permanent. It encourages active travel and makes a useful local link between Kilburn Grange Park and Sheriff and Netherhall Roads.

Please acknowledge receipt of this response. We would be very happy to discuss any aspect of our comments; contact details are below.
