### Tell the Camden party leaders to pledge on Climate Safe Streets

### **The local elections are on 5th May**

We've seen more progress for safer cycling (and walking/wheeling) than in many other boroughs, with committed politicians and planners. But they need to know we still want more, to ensure they stay committed and to help them face down regular, very noisy opposition. So if you want more protected cycle lanes and quiet streets in Camden, please email the party leaders via the link below to ask them to commit to our Asks. You could also include a line of your own about the thing you like best about what's been done so far, so that they pick up some appreciation! [Read about our Asks here.](#)

A big thank you to everyone who has already taken the action and sent the email. Please share with anyone else you know who might feel able to send the email, too.

## A new connection across Kentish Town Road

### Angler's lane two-way for cycles

Angler's Lane has been closed to motor vehicles between Kentish Town Road and Raglan Street. Cyclists can now travel right through Angler's Lane in both directions, providing an excellent connection from east Kentish Town to the new cycle route on Prince of Wales Road.
