Greening Phoenix Road Safe and Healthy Streets Consultation

This response to the consultation on the above proposal from Camden Council is from Camden Cycling Campaign, the local borough group of London Cycling Campaign. We represent the interests of cyclists living or working in or travelling through Camden and aim to expand the opportunities for all to cycle safely in the borough. We have discussed this consultation by email.

We are strongly in favour of this scheme which will greatly enhance:

- the signed walking route between St Pancras and Euston Stations both by 'greening' and by the ban on through motor traffic;
- the Somers Town cycle route on Ossulston Street by the new ban on through motor traffic and the retention of the No Entry from Euston Road into Ossulston Street;
- and east-west route cycle routes through Somers Town e.g. to access Euston Station or the proposed new cycle route on Lidlington Place, particularly at times when the agreed Healthy School Streets restrictions are in place.

We are also very interested in the associated proposals for Green Mobility Hubs and would like to participate in discussions as to their precise locations and the facilities provided.

Please acknowledge receipt of this response. We would be very happy to discuss any aspect of our comments; contact details are below.
