Healthy School Streets consultation – The Cavendish school

This response to the consultation on the above proposal from Camden Council is from Camden Cycling Campaign, the local borough group of the London Cycling Campaign. We represent the interests of cyclists living or working in or travelling through Camden and aim to expand the opportunities for all to cycle safely in the borough. We have discussed this proposal within our committee by email.

Healthy School Street Restrictions

Following the low-traffic neighbourhood in Arlington Road including the footway widening outside the Cavendish School main entrance in Inverness Street and the subsequent restriction on southbound motor vehicles from turning into Arlington Road from Inverness Street the reported level of motor traffic in Inverness Street at school arrival and departure times is still unacceptable.

Inverness Street is on a well-used cycle route to and from Regents Park..

We are therefore strongly in support of the Healthy School Street motor vehicle restrictions in Inverness Street, between Gloucester Crescent to Arlington Road.

We are pleased to see Camden continuing to make progress towards their target that all feasible schools should have Healthy School Streets by 2025.

Please acknowledge receipt of this response. We would be very happy to discuss any aspect of our comments; contact details are below.
